

# From Environmental Protection to Environmental Management & Restoration

Kaihara, Toshitami.

President, Hyogo Research Institute for Regional Policy, Kobe, Japan

Former Governor of Hyogo Prefecture

## 1. Introduction

- Evaluating the Activities of the International Conference on Environmental Management on Enclosed Coastal Seas, and Its Meaning in the International Community
- Development of Environmental Management Policy on the Seto Inland Sea
- Toward Solutions for Environmental Issues in the 21<sup>st</sup> Century

## 2. Coexistence of People and Enclosed Coastal Seas

- An Ideal Environment for People to Live in
- Appropriate Environmental Conditions for Economic Productivity
- Environmental Deterioration and The Fragility of Ecosystems

## 3. The Change from a Policy of Environmental Protection against Pollution to one of total Environmental Management, Governance and Restoration

- Environmental Governance – The Balance of Power between People and Nature
- The Economic Impact of Environmental Restoration – A Case Study of Urban Renewal
- Expectations of the Amagasaki Century 21 Project

## 4. My Hopes for EMECS Activities

- Establishing Networks between People
- Sharing Knowledge, Technology and Information on Environmental Management and Environmental Restoration
- Cooperation for the Cultivation of Human Resources
