

Approach to New Measures for Environmental Management and Restoration in the Seto
Inland Sea (Response)

January 19, 1999

National Council for the Environmental Management of the Seto Inland Sea

Contents

Part 1 Issues and New Trends

- 1 History of Measures for Environmental Management in the Seto Inland Sea
- 2 Socioeconomic Status of the Seto Inland Sea
 - (1) Population
 - (2) Manufacturing
 - (3) Fishing
 - (4) Distribution
- 3 Changes in the Inland Sea Environment and Issues to be Resolved
 - (1) Water Quality
 - (2) Seaweed Beds / Tidal Flats
 - (3) Scenic Beauty
 - (4) Land Reclamation
 - (5) New Issues
- 4 New Trends in Environmental Policy

Part 2 Basic Approach to Future Environmental Management Efforts in the Seto
Inland Sea

- 1 Improvement of Conservation Measures
- 2 Development of Measures to Restore Lost Environments
- 3 Promotion of Wide-Ranging Cooperation and Participation

Part 3 Development of Future Environmental Measures

- 1 Improvement of Conservation Measures
 - (1) Promotion of Comprehensive Measures to Preserve Water Quality
 - (2) Preservation of Seaweed Beds, Tidal Flats and Natural Beaches
 - (3) Ensuring / Promoting Contact with Nature and Preserving Scenic Beauty
 - (4) Limiting Land Reclamation
 - (5) Measures for Excavation of Sand from the Ocean Floor
 - (6) Measures to Deal with Garbage Dumping

- (7) Promotion of Measures to Deal with Oil Spills
- (8) Preservation of Island Environments
- 2 Development of Measures to Restore Lost Environments
 - (1) Basic Approach
 - (2) Concrete Measures
- 3 Promotion of Wide-Ranging Cooperation and Participation
 - (1) Review of the Basic Plan for the Environmental Management of the Seto Inland Sea, Basic Policy for Reclamation and Prefectural Plans for the Seto Inland Sea
 - (2) Measures to Plan the Preservation and Recovery of Coastal Environments
 - (3) Measures to Deal with Programs, Projects etc.
 - (4) Promotion of Citizen Participation
 - (5) Improvement of Environmental Education and Study
 - (6) Promotion of Research and Technical Development
 - (7) Improvement of Information Access and Dissemination
 - (8) Expansion of Wide-ranging Cooperation
 - (9) Roles of and Liaison between Entities
 - (10) Liaison with Overseas Enclosed Coastal Seas
